HR Workshop Series

By Popular Demand...

The people have spoken! And we are responding. After completing the Winter Workshop series of programs, the HR professionals who attended asked for more: more programs, more topics, more information - same format. Who are we to say no! In an effort to provide the same valuable, practical information to help HR professionals tackle the difficult, but common legal issues they face on a daily basis, we are pleased to offer the following programs:

- **Lessons Learned** – real tips, gleaned from over 25 years representing employers, on ways to reduce and avoid legal exposure when dealing with problem employees. Topics to be covered include: effective documentation, risk-free decision making, recognizing the “red flags,” and the seven steps of discharge.
- **Workers’ Compensation from A- Z** – worker’s compensation is often a very difficult and frustrating problem for HR professionals – from both cost and operational perspectives. Learn what makes a claim compensable, what benefits are payable, why they are paid, what you can do to reduce costs, how the system works, and why so many claims are settled. (WC, Part I)
- **Employment Obligations to Injured Workers** – the filing of a First Report of Injury often marks the beginning of a long and complicated journey through a maze of legal obstacles that an employer must hurdle in order to avoid liability. This program will help guide you through that maze, addressing all of the laws and issues that govern an employer’s obligations to injured workers. (WC, Part II).
