Teleconferences offer an excellent opportunity to brief your entire staff with *no lost travel time or expenses*. And no special equipment is required to participate in the live interactive program - all you need is a standard telephone.

In just 45 minutes, you and an unlimited number of your staff members will gain a deep understanding of *many* issues including:

1. How an independent contractor agreement can actually destroy an independent contractor relationship!
2. What provisions you should always have in an independent contractor agreement.
3. How to strengthen independent contractor status (including establishing and maintaining independent contractor files) to help lower liability and the risk of legal problems.
4. What are the biggest errors flooring companies make in their independent contractor relationships?
5. How to comply with the brutal new law, the Illinois Employee Classification Act.

If you use independent contractors, don't miss this seminar, especially designed for the flooring industry.
